

Live Gas Line Locating

Lateral Gas Line Tracer Kit

Fiberglass rod with tracer wire and grounding with integrated Stuffing Box that locates live plastic lateral gas lines from meter to the main.

- Stuffing Box connects to any riser's shut off valve
- No blow-by while feeding rod into live line
- Small bullet tip guides rod from riser to lateral transition
- Use any transmitter and receiver to non-invasively trace gas line from above ground
- Includes wire and clip for static grounding

Stuffing Box
